

2014 AWiL International Symposium

Women's Leadership in Different Cultural Contexts: Learning from Women Ambassadors to Japan

As of August 2014, there are 153 embassies in Japan, and 18 of them are headed by female ambassadors. In this symposium entitled "Women's Leadership in Different Cultural Contexts: Learning from Women Ambassadors to Japan" five women ambassadors from the countries in four continents of Africa, America, Pacific, and Europe will give speeches on women's social status and leadership in different cultures. We hope that the symposium will provide valuable opportunities for the audience to learn about ways to empower women and to increase female leaders in Japan.
